Maximum depth	
MFC	2097mm
HPL	2067mm
SGL	1921mm
Floor clearance	
100mm	

For standard height option see p56.

Performance

Available in three material options, Award Low-Level is suitable for every type of wet or dry environment, allowing you to specify the most appropriate option to meet site requirements and your budget.

MFC
For dry environments with low risk of vandalism. Panels are manufactured from 19mm nominal thickness high performance moisture-resistant melamine faced chipboard. Edges lipped ABS.

HPL
For more heavily used washrooms, panels are heat, scratch and impact resistant. Manufactured from moisture-resistant chipboard faced with high pressure laminate, panels are 19mm nominal thickness. Edges lipped ABS.

SGL
Solid grade laminate is extremely resistant to impact and all surfaces are impervious to water. Panels are 13mm nominal thickness with polished black radiused edges.

Detailing
