Model 4

434 x 262mm

Model 5

345 x 262mm

Active locker

400mm width

Opening sizes

Model 1

1774 x 362mm

Model 2

880x 362mm

Model 3

583 x 362mm

Model 4

434 x 362mm

Model 5

345 x 362mm

Model Z

1457 x 362mm

Bench locker

300mm width

Opening sizes

Model 1

1434 x 262mm

Model 2

711 x 262mm

Model 3

469 x 262mm

Model 4

349 x 262mm

Bench locker

400mm width

Opening sizes

Model 1

1434 x 362mm

Model 2

711 x 362mm

Model 3

469 x 362mm

Model 4

349 x 362mm

Model Z

1025x 362mm

Overall height
Active lockers 1913mm
Bench lockers 1473mm from bench level

Widths
300mm (not applicable to Model Z)
400mm

Depths
500mm
830mm (including bench)

Active lockers key features

- Available in 34 laminate colours
- Robust and hardwearing
- Practical in design and functionality
- High impact resistance
- Totally impervious to water

Door performance
High impact resistant 13mm thick Solid Grade Laminate (SGL) doors with 3mm radius corners.

Body performance
Robust, hardwearing and waterproof 3mm SGL carcass in Cloud.

Dividers
Hygienic, easy to clean 13mm thick SGL horizontal shelves in Cloud or Shadow.

Hinge
Rolled stainless steel self-closing hinge.

Ventilation
3mm space between doors and frame allows air to circulate.

Locks

- Coin retain
- Coin return
- Cylinder/cam lock
- Digi lock
- RFID lock
- Hasp lock

Accessories

- Laser cut numbers for locker doors
- Nylon coat hooks as standard with Model 1, Model 2 and Model Z lockers
- Nylon coat hooks as standard with Model 1 and Model Z bench lockers
- Corresponding wristband in red or blue

Stands
Venesta recommends that the lockers are installed on a raised concrete base in wet areas. Alternatively, the lockers can be mounted on a powder coated cantilevered bench. Please contact our sales team for details.

Benches

Our benches have been designed to provide strength, safety and flexibility. Available in 2 materials (13mm SGL and 32mm hardwood) and in five profiles. Each benching solution has Light Grey (RAL9006) powder coated steel or stainless steel* tubular framework.

Box section construction is tubular with adjustable feet and hidden fixings.

These bench systems are ideal for any of our washroom or cubicle systems, in both wet and dry environments.

*Contact our friendly sales team on 01474 353333 for details on prices and lead times.

Perimeter cantilever benching

Island benching

Perimeter

Freestanding benching

Locker benching

Benching key features

- Hardwearing SGL and hardwood benching options available
- Available in five profiles, each with tested tubular framework
- Ideal for wet and dry environments
