

Product portfolio

**We know washrooms.**  
For all your design and  
budget requirements.

**Venesta**

A photograph of a modern washroom interior. On the left, there is a long row of bright orange washroom cubicles. Each cubicle has a small, circular silver handle. The floor is made of large, light-colored square tiles. On the right, a white wall features a rectangular mirror. The lighting is bright and even.

## **We know washrooms.** After more than 120 years of innovation in partnership with our customers, we're still passionate about setting new standards of design, value, performance and reliability.

At Venesta, we live and breathe washrooms. Ever since the early days, innovation has been our inspiration, and product excellence our goal. With a commitment to setting the benchmark for design and performance, we've partnered with our clients in creating solutions that they can rely on to satisfy the most challenging and demanding of briefs.

Today, our expert knowledge and pioneering attitude have inspired our new range of commercial toilet cubicle and washroom systems. On the following pages you'll discover great product choice, value for money and uncompromising quality. As customer care is so important to us, you'll find we're breaking new ground in customer service too.

We invite you to see for yourself.

# We know our customers.

## From tailor-made design excellence to dedicated support and responsive service, everything we do is focused on you and what you need to get the job done.

### Your guarantee of quality

At Venesta, quality underscores everything we do. Our design team is dedicated to providing solutions that inspire, delight and perform superbly, even in the most demanding of environments.

All of our fittings are designed to suit our clients' specific requirements. Each component is considered in detail, in terms of both visual appearance and functionality. The same integrity applies in the way we select materials.

Our research and development team is continually raising the design benchmark and no product is launched without extensive testing. In fact, we've been at the forefront of industry invention for many years and have pioneered countless innovations.

### Durable and fit for purpose to suit your demands

Everyone expects a product that's fit for purpose but for Venesta, all of our products come with a rock solid 10 year guarantee. We make it our business to really understand your needs before providing the appropriate solution. That way we can be sure you're getting the right product for the job. Fit for purpose also means high standards of durability.

### Simple to install to make your life easier

Because we want to make your life as easy as possible, installation is at the forefront of our mind when we're creating new products. With simplicity built into every solution and thorough fixing instructions provided, we can ensure your washroom will be built and ready for use in the shortest of time frames. But don't forget, if you do experience any difficulties, our customer service team is here to resolve any issues quickly and efficiently.

### A team of experts focused on fulfilling your needs

At Venesta, we've built a team of people who are genuinely passionate about what they do. Many of us have been with the company for years and have built up a wealth of experience and product knowledge. We have CAD technicians to help with your drawings, project management professionals to ensure everything is on budget and on time, manufacturing experts who have a fine eye for detail and a friendly team that's committed to your total satisfaction.

### Equality Act 2010 compliant for your reassurance

At Venesta, we're an authority on Equality Act 2010 compliance. From access, to colours and finishes, we offer products that are fully compliant. What's more, because we understand the Equality Act 2010 inside out, we can provide an unrivalled level of support and advice, should you need it.

**The UK's first panel manufacturer to achieve 0% board waste to landfill**  
In 2019 we were extremely proud to announce that we achieved our target of 0% board waste going to landfill, with the help of our £1M state-of-the-art 1.75MW on-site biomass burner.

The heat generated from our burner provides heating to our entire manufacturing facility and office buildings, self-sufficiently, from waste offcuts.

As a manufacturer we're making the most of every portion of the materials that we use and are continually searching for ways to reduce energy consumption across all of our facilities. We know our responsibility and Venesta is totally committed to making a positive impact on the environment.

- 01 A friendly team of experts**  
We're genuinely passionate about what we do and enjoy sharing our wealth of experience and product knowledge with you.
- 02 A fine eye for detail**  
Our team is committed to your total job satisfaction, and that means getting every detail right, every time.
- 03 Our responsibility to the environment**  
The heat generated from our biomass burner provides heating to our entire manufacturing facility and office buildings from waste offcuts.
- 04 Quality materials**  
No product is launched without extensive testing and all materials are selected for quality and durability.

# We know good service.

## The quality of our products is only half the story. We know that excellent service can make all the difference to your satisfaction.

### Our 7-stage service plan

Whether it's a simple vanity unit or an extensive refit, you'll always find we go the extra mile to ensure you're happy. Here's our 7-stage service plan.

#### Stage 1 Specification

Our dedicated team of Specification Managers will help you choose the most cost effective and suitable products for your project without compromising on aesthetics and quality. To help you, our NBS specification writing service is available free of charge to guide you through all the detail. With our remote specification service, the process is quick and easy. Simply send over your drawings and your local Specification Manager will provide you with a comprehensive specification tailored to your project. Remember, whenever you need advice of any kind, just call our helpful sales team, who can also provide you with product literature and material samples.

#### Stage 2 Estimating

Our estimating service levels have never been stronger; it's our aim to never deliver a late quotation. We pride ourselves on our attention to detail, so our comprehensive quotations always give the most detailed breakdowns of materials and prices. Don't forget, our dedicated technical helpline is here to give you technical support on all our products at any stage of the estimating and ordering process.

#### Stage 3 CAD

Once your order is placed, our highly skilled CAD Technicians will prepare layout drawings. At this stage, you'll be given a dedicated CAD Technician to work with you throughout your project. Everything from dimensions, colours and drawings can be sent for your approval prior to manufacture.

#### Stage 4 Manufacture and delivery

We're committed to delivering your order as soon as we possibly can, wherever you are in the world. With that in mind, we've invested £5m in state-of-the-art machinery - allowing us to streamline our manufacturing process to make it more efficient than ever before. 100% on time, in full with no errors is our aim and we monitor our performance closely to ensure we can deliver on this.

#### Stage 5 Installation

Our highly responsive technical helpline is here to give you technical support throughout the installation process. It's worth remembering that although we're a supply only company, if you need fitting too, there are Accredited Installers we can recommend who have vast experience installing our products. Accredited Installers undergo a rigorous training and approval process so you can be assured of a top quality job.

#### Stage 6

##### After sales support and spares

Once your products have been delivered, we'll give you your own dedicated point of contact to efficiently deal with all your after sales needs. Attentive and highly empathetic to your needs, they'll ensure you're completely happy at all times with our service.

#### Stage 7 Spares website

Our spares website has been created to make it as easy as possible for you to purchase spare items for your Venesta products. Whether it's a toilet cubicle lock, a pedestal leg, headrail end caps, washroom cubicle hinges or door buffers, it's easy to find what you are looking for on our Venesta spare parts website. You'll find everything you need at [www.venesta-spares.co.uk](http://www.venesta-spares.co.uk).

One final thing, at Venesta, we appreciate customer feedback; it helps us to ensure we can continue to improve what we do in line with your needs. So, if you have any comments on our products or service, we want to hear them. You can call us on 01474 353333.

#### 01 Sample service

Our helpful sales team can provide you with product literature and samples.

#### 02 Technical drawings

Everything from dimensions, colours and drawings can be sent for your approval prior to manufacture.

#### 03 Dedicated technical helpline

When you're ready to specify, our dedicated technical helpline offers you all the technical support you need.

#### 04 Design team

A Specification Manager will talk through your washroom requirements to help you choose the most suitable products for your project.

# We know choice.

## We make washrooms to suit all your specification needs, however demanding.

Created by our team of talented designers, the Venesta range brings together toilet cubicles, pre-plumbed washroom systems, panelling, vanity units and washroom accessories. To make specifying easy, we've categorised our products into these key areas:

### V1

#### Low-cost cubicles

Affordable style is our V1 signature. We've created each product to give you great value without compromising on quality or functionality.

### V2

#### Standard cubicles

With an extensive choice of colours and fittings, our V2 standard range offers unrivalled performance and quality at an affordable price.

### V3

#### Premium cubicles

At Venesta, we love design and V3 is our premium range for style-led environments. You can expect superb craftsmanship, the latest finishes and on-trend colours.

#### Specialist ranges

Our specialist ranges feature a collection of designs that cater for more specific requirements, with designs for education, healthcare, sports and leisure centres.

#### Panelling

We created the very first pre-plumbed system and we've been evolving our range ever since. We can offer you three choices according to your needs and budget: Vepps, Frameduct and Rapiduct.

#### Mirrors, vanities and accessories

Whatever your budget or environment, we have a great choice of Mirror Box Units, vanity units and accessories to complement your washroom.

We know washroom solutions.  
Choice at your service.

# V1

**We know cubicles.**  
V1 delivers highly functional, affordable style that's designed to suit both your budget and your specification needs. What more could you ask for?

**Your low-cost range with quality and style built in.**  
At Venesta, we believe you shouldn't have to compromise on quality just because you're choosing a low-cost solution. So our design team has risen to the challenge, bringing you the best quality finishes and fittings at the best price to suit your budget.

**Unity** Simple and striking: that's Unity. This clean, modern design is the UK's most economical, well designed flush cubicle range. Whatever the environment, Unity's 'floating' flush front always makes a big impact.

# Unity

**01** Slimline profile headrail in satin anodised aluminium finish. 3 part fixing system allowing cubicles to finish only 20mm below ceiling height.

**02** Pedestals are fitted to partitions to give the range its floating appearance.

**03** Standard fittings.

**04** Black effect fittings.

**05** Brass effect fittings.

**06** Bronze effect fittings.

**Main image**  
Unity ColourCoat cubicles in Orange (RAL2008) with Solid Surface H2 profile vanity.

See p24-25 for Unity technical specifications.

See why Unity is our most popular cubicle by watching our dedicated video on our YouTube channel.

**03**

**04**

**05**

**06**

# Unity

**ColourCoat**  
ColourCoat is our vibrant range of contemporary spray painted colours. Doors and pilasters are sprayed with a coat of primer and finished with 20% gloss pigmented lacquer.

**ColourCoat High Gloss**  
ColourCoat High Gloss is our highly reflective, spray painted colour finish. Doors and pilasters are sprayed with a coat of primer and finished with 80% gloss pigmented lacquer.

**01** Pedestals are fitted to partitions to give the range its floating appearance.

**Main image**  
Unity ColourCoat cubicles in Purple (RAL4006) with Solid Surface H3 profile vanity.

See p24-25 for Unity technical specifications.

**Key features**

Minimal look with clean lines

Flush fronted with a floating appearance

Satin anodised aluminium and stainless steel fittings

Full height and increased privacy options available

Choose from 34 standard laminate colours or 10 RAL finishes for ultimate design flexibility

Optional choice of black, brass or bronze effect cubicle hardware for ultimate design flexibility

## Case Study Capital One Head Office

**Capital One recently turned their attention to breathing new life into their washrooms to give their staff the very best facilities throughout their office.**

Capital One's previous washrooms were dated and in need of a complete overhaul. We were pleased to work alongside Nottingham-based contractors Rotunda Construction to bring Capital One's employees new stylish, modern and easy to maintain washrooms.

Our Unity toilet cubicles were specified in all six of the new washroom areas at Capital One. With setback satin anodised aluminium pedestals fixed to the partitions, Unity has a floating appearance which makes a huge impact in these modern washrooms.

The cubicles were specified in Solid Grade Laminate (SGL) which is an impact and scratch resistant material so will withstand heavy usage in Capital One's busy office. SGL is impervious to water, meaning the cubicles can be regularly cleaned, so that excellent hygiene standards are maintained.

Capital One had a choice of 34 laminate finishes for their Unity toilet cubicles, and opted for our luxurious wood effect 'Dark Walnut' laminate, which complemented the décor of the rest of the rooms.

The minimally designed, flush-fronted cubicles feature sleek satin anodised aluminium flip indicator bolts, faceplates and internal mortice locks, which complement the contemporary design of the cubicles. The indicator bolts offer a cleverly designed emergency release mechanism, so access to locked cubicles can be gained without causing damage to the lock or having to remove the door in the event of an emergency.

## Performance

Available in four material options, Unity is suitable for every type of wet or dry environment, allowing you to specify the most appropriate option to meet the site requirements and your budget.

**HPL**  
For more heavily used washrooms, panels are heat, scratch, impact and cigarette burn resistant. Moisture-resistant chipboard faced with high pressure laminate. Edges lipped with ABS. Doors and pilasters are 35mm nominal thickness with an MDF core, partitions are 19mm nominal thickness.

**SGL**  
Solid grade laminate is extremely resistant to impact and all surfaces are impervious to water. Panels are 13mm nominal thickness with polished black radiused edges.

**ColourCoat**  
Panels have an MDF core. Doors and pilasters are sprayed with a coat of primer and finished with 20% gloss pigmented lacquer. Doors and pilasters are 35mm nominal thickness, partitions are 18mm nominal thickness.

**ColourCoat High Gloss**  
Panels have an MDF core. Doors and pilasters are sprayed with a coat of primer and finished with 80% gloss pigmented lacquer. Doors and pilasters are 35mm nominal thickness, partitions are 18mm nominal thickness.

## Detailing

**Panels and doors**  
Available in HPL, SGL, ColourCoat and ColourCoat High Gloss.

**Colour finish**  
**HPL and SGL**  
34 colours from the standard range.  
**ColourCoat and ColourCoat High Gloss**  
10 colours.  
**Cubicle hardware**  
Satin anodised aluminium and stainless steel. Optional choice of black, brass or bronze effect coatings.

**Edge treatment**  
**HPL**  
Matching ABS lipping.  
**SGL**  
Polished black radiused edge.  
**ColourCoat**  
Edges sprayed with a coat of primer and finished with 20% gloss pigmented lacquer.  
**ColourCoat High Gloss**  
Edges are sprayed with a coat of primer and finished with 80% gloss pigmented lacquer.

**Headrail**  
Slimline aluminium profile headrail in satin anodised finish. 3 part fixing system which allows cubicles to finish only 20mm below ceiling height.

**Key features**

- Full satin anodised aluminium frame
- Floor fixed pilasters for added rigidity
- Uniform slimline pilasters and headrail
- Contemporary minimal design
- Sleek satin anodised aluminium fittings
- Complete colour flexibility
- Economical
- Full height option available for increased privacy

## Case Study Dover Castle

**Our metal-framed Fusion toilet cubicles bring English Heritage site Dover Castle cutting-edge washroom design and unrivalled performance.**

Steeped in history, Dover Castle has stood on Kent's iconic White Cliffs for nine centuries. It's one of the most famous European fortresses, with an important place in British History.

With just shy of 370,000 people visiting the castle in 2019 alone, the English Heritage site required durable and hardwearing washroom solutions to withstand the demands of such high footfall.

Our ultra-strong metal-framed toilet cubicle range, Fusion, was specified for Dover Castle's washrooms. The metal frame fixes directly into floor mounting blocks, making Fusion toilet cubicles strong and secure.

The cubicles were manufactured in Solid Grade Laminate (SGL) thanks to its durable and impact resistant properties. SGL is the ideal material for high footfall washroom environments as it's completely waterproof so can withstand regular and intensive cleaning regimes, to ensure that the highest levels of hygiene are met at all times.

Dover Castle had 34 on-trend laminate colours to choose from for their toilet cubicles. The female cubicles were finished in 'Merlot', while 'Duck Egg' was the choice for the male cubicles; with all partitions in neutral and complementing 'Cloud'.

  - Suitable for wet and dry environments
  - Unique satin anodised aluminium shoe
  - Wall channels for additional rigidity
  - Emergency release indicator bolts
  - Anti-finger trap hinges as standard

# Case Study The Leigh Academy

“The cubicles are what we’re best pleased with; they’re well made and will stand the heavy flow of traffic through them. Users have been pleased to see the transformation of old tired facilities to a bright inviting area.”

Nicholas Campbell, Site Manager at The Leigh Academy.

After 11 years since the reconstruction of The Leigh Academy’s original school buildings, the washrooms had become tired and were in need of rejuvenation. The thoughtful design of the school provides inspirational spaces for students and staff, so it was crucial that the new washrooms would uphold existing standards, whilst taking into consideration respect for student privacy, ease of supervision and quality.

The academy expressed a desire to remove doors upon entry to all toilet facilities, to act as a deterrent against anti-social behaviour. This was possible with our full height Titan cubicle range, providing maximum privacy whilst maintaining the integrity of student safety with emergency access features.

Titan has a minimal floor clearance of just 10mm, meaning no one can peep under or over cubicle doors, further reducing opportunities for bullying. In the event of an emergency, staff can release doors with our rapid release indicator bolts, without having to remove doors or cause damage to the cubicles.

The use of Solid Grade Laminate (SGL), specified in a light grey colour, has also helped to keep maintenance efforts low. The smooth surface of SGL is easy to clean and is totally waterproof so it can endure regular cleaning. With the help of robust fittings it is also impact, heat and scratch-resistant.

## Case Study Wimbledon Chase Primary School

**Versatile and robust Award toilet cubicles were specified due to the unrivalled safety features that come as standard.**

Rated 'Outstanding' by Ofsted since 2012, Wimbledon Chase Primary School teaches over 700 pupils aged 3-11. It offers an inclusive environment where individuality and diversity is celebrated and kindness and respect is instilled in every child.

The school's washroom facilities were in need of a complete overhaul. Accredited Installers, G Haslehurst Builders, were appointed to reconfigure the space which included the installation of contemporary, reliable and easy to maintain washroom systems, all in good time.

Versatile and robust Award toilet cubicles were specified due to the unrivalled safety features that come as standard. Anti-tamper fixings and emergency release indicator bolts make Award a popular choice for schools.

These cubicles will stand the test of time thanks to the heat, scratch, impact and water resistant Solid Grade Laminate (SGL) coreboard material specified.

A fun, colourful washroom has been created by specifying the cubicle doors in 'Golden', 'Lime', Rouge' and 'Pacific', while contrasting 'Gunmetal' pilasters and partitions complement the modern décor of the room perfectly.

Pilaster to partition: Continuous satin anodised aluminium U-channel.  
Pilaster to wall: Continuous satin anodised aluminium U-channel.

**Accessories**  
Coat hooks and toilet roll holders available.

# V2

**We know cubicles.**  
For quality, style and durability, V2 is your promise of innovation at affordable prices. With our trademark attention to detail, stylish good looks and versatility, we've created a range that satisfies time and time again.

**Your choice for colours and fittings.**  
A faultless combination of style and functionality, V2 is our hugely popular mid-range that promises you maximum colour possibilities and a superb selection of the latest fittings.

**System M** is a unique, robust toilet cubicle range with a patented, simple to operate, rapid release outward opening door system that provides optimal emergency access.

System M

# System M

System M has been designed to comply with the Document M regulation, for access to and use of buildings, while maintaining attractive aesthetics. System M has a proven track record of being able to cope with the demands of constantly used washrooms in some of the busiest airports in the world, including London Heathrow and Gatwick. This optimal emergency access cubicle is suitable for all high traffic environments, in particular airports, retail outlets and public buildings, such as schools and hospitals.

- 01 Pivoting pilasters allow easy access with quick release system.
- 02 Release facility allows a normally inward opening door to be opened outwards without causing damage to the cubicle.

**Main image**  
London Stansted Airport featuring System M.

See p66-67 for System M technical specifications.

See System M cubicles in action by watching our dedicated video on our YouTube channel.

## Key features

- Award-winning, patented emergency access system
- Quick and easy access within an industry-leading 30 seconds
- Simple to release and reset, no damage to the cubicle
- No tools required for emergency release
- Complies with Document M, DDA and SSLD-3 Regulations
- Sleek floating appearance
- Attractive satin anodised aluminium pilasters and headrail
- 34 on-trend laminate finishes to choose from

# System M

System M features an innovative pivoting pilaster design with a discreet release facility operated without the use of tools or removable parts, allowing the normally inward opening door to be opened outwards within an industry-leading 30 seconds. Re-setting is simple, with no replacement parts and no visual compromise to the stylish design.

**Emergency release:**

**Stage 1:** System M's innovative pivoting pilaster release system is not apparent to the everyday user and therefore retains a standard level of security and privacy.

**Stage 2:** In the event of an emergency, staff can open the lock using a coin, which allows the door to move freely. The pilaster can then be "squeezed" to release the door outwards, providing an emergency response time of less than 30 seconds.

**Main image**  
System M cubicles and  
WT1 profile vanity.

See p66-67 for  
System M technical  
specifications.

## Case Study London Gatwick Airport

London Gatwick is the second largest airport in the UK, flying to more destinations than any other UK airport. Gatwick has more than 280,000 flights across 90 airlines, carrying more than 46 million passengers per year.

Since 2009, Gatwick has undergone ongoing transformation to improve passenger experience through a £2.5 billion investment programme to all areas of the airport, including the washrooms.

With a requirement for a robust washroom to withstand the heavy footfall, System M was recommended for its durable and stylish design with its unique ability to access the cubicles in less than 30 seconds in an emergency.

The patented system enables normally inward opening doors to be opened outwards in an emergency, without having to break components or lift off pilasters or doors, the perfect solution for an airport.

At Venesta Washrooms, we understand that safety is paramount in busy airports. With our System M toilet cubicle range, Gatwick has peace of mind they are able to react quickly and easily in an emergency without damage to their washroom systems.

# Case Study Derriford Hospital

“We decided on the System M cubicle to aid with manual handling and to assist with a quick access should we need to.”

Peter Caton, Senior Planning Support Manager & Site Service at Derriford Hospital.

Derriford Hospital forms part of the University Hospitals Plymouth NHS Trust and is the largest hospital in the south west peninsula, providing access to comprehensive secondary and tertiary healthcare for almost 2,000,000 people.

To complement the opening of their new, state-of-the-art Changing Places facility, that will greatly improve the experience of disabled patients and their families, the hospital realised a need to improve the reception foyer washrooms.

With safety a priority for all healthcare facilities around the world, we were asked to design a bespoke cubicle system to meet the specific needs of Derriford Hospital. Above all, the washrooms would need to accommodate a high footfall of patients and visitors of all abilities.

As well as allowing rapid access, the washrooms also needed to be strong and durable to support the challenging environment of a major hospital. System M made the ideal choice and was tailored to suit the needs of the environment with doors and partitions manufactured from our strongest material, Solid Grade Laminate; defending against scratches, water and moisture, vandalism and hard impact.

“The overall reaction from users has been that they are delighted with the new facilities, commenting on the extra space, increased number of cubicles, simple but useful accessories such as bag hooks and the colour of the cubicles.”

Technical Specifying System M

Dimensions

**Standard height**  
2120mm

**Maximum depth**  
2068mm

**Floor clearance**  
150mm

**Minimum ceiling clearance**  
100mm

Performance

System M cubicle partitions are manufactured in 26mm medium density fibreboard (MDF) faced both sides with high pressure laminate (HPL) and lipped with ABS.

Doors are manufactured in 13mm solid grade laminate (SGL) with radiused edges.

**HPL**  
For more heavily used washrooms, panels are heat, scratch and impact resistant.

**SGL**  
Solid grade laminate is extremely resistant to impact and all surfaces are impervious to water.

Detailing

**Panels and doors**  
HPL panels and SGL doors.

**Colour finish**  
**HPL and SGL**  
34 colours from the standard range.  
**Cubicle hardware**  
Stainless steel and satin anodised aluminium.

**Edge treatment**  
**HPL**  
Matching ABS lipping.  
**SGL**  
Polished black radiused edge.

**Headrail**  
High strength satin anodised aluminium U-section headrail.

**Pilasters**  
Unique, patented, pivoting high strength satin anodised aluminium shaped pilaster fixed to cubicle partition. Pilasters allow doors to open outwards in an emergency.

**Cubicle hardware**  
**Indicator bolt**  
Stainless steel circular faced indicator bolt with emergency release and nylon keep.

**Hinge**  
Satin anodised aluminium anti-tamper lift off rise and fall hinge.

**Pedestal**  
150mm stainless steel height adjustable pedestal.

**Fixings**  
Partition to wall: Satin anodised aluminium T-section.

**Accessories**  
Coat hooks and toilet roll holders available.

**Centurion** stands for strength and rigidity but because we believe even the toughest of washrooms deserve some style, it looks good too. Satisfying your need for extra privacy, the range comes with standard, full height or increased privacy options.

# Centurion

Centurion's strength comes from a number of key details. Wall channels offer extra rigidity and pilasters extend to the floor, so no pedestals are required. Easy to clean, robust and vandal-proof, these cubicles come with hardwearing fittings.

**01** High strength, fluted satin anodised aluminium pilaster.

**02** Indicator bolts come with emergency release facility as standard.

See p76-77 for Centurion technical specifications.

**Main image**  
Centurion HPL with satin anodised aluminium pilasters and Vepps HPL panels.

- Key features**
- Robust frame design
  - Fluted satin anodised aluminium pilasters
  - Renowned for strength and rigidity
  - Hardwearing and easy to maintain
  - Easily adjustable hinges
  - Emergency release indicator bolts
  - A choice of 34 on-trend laminates

# Centurion Full Height

A handsome design in any setting, Centurion Full Height cubicles are supplied with floor to ceiling toilet partitions and overpanels above the doors, creating a private space. So if you're looking for extra privacy when specifying cubicles, Centurion Full Height will satisfy your needs.

**01** Floor fixed satin anodised aluminium pilasters with 5mm floor clearance.

**02** Fluted satin anodised aluminium pilaster and overpanels above doors.

See p76-77 for Centurion Full Height technical specifications.

**Main image**  
Centurion Full Height SGL cubicles with satin anodised aluminium pilasters.

- Key features**
- Robust frame design
  - Fluted satin anodised aluminium pilasters for added strength
  - Overpanels above doors with full height partitions offers privacy for users
  - Easily adjustable hinges
  - Floor to ceiling for increased privacy
  - Emergency release indicator bolts

## Case Study Tudor Grange Academy

**“To meet the rigorous demands of this type of environment, all facilities in our academy have to be robust, efficient and fit for purpose. Centurion has fulfilled these requirements, and has given an excellent finished appearance.”**

Graham Turner, Facilities Manager at Tudor Grange Academy.

Rated ‘Outstanding’ by Ofsted, Tudor Grange Academy is a comprehensive school in South Solihull. Also awarded ‘World Class School’ status, Tudor Grange is committed to delivering a high-quality educational experience for its 1,600 students.

The Academy strives to create a safe and secure space for its students and staff, giving everyone the opportunity to achieve and succeed. They wanted to make the new school washrooms a more open and less intimidating space for all students. The washrooms would also need to be easy for staff to supervise, where needed.

Tudor Grange Academy had a requirement for robust, high specification toilet cubicles that would be able to withstand the rigours of a large and busy Academy; as well as a panelling system that would be easy to maintain.

Renowned for strength and rigidity, Solihull Council chose the Centurion Full Height toilet cubicle range for six male and female unisex school toilets around the campus.

Robust Centurion Full Height cubicles specified in dark grey laminate, along with pre-plumbed Vepps panelling in yellow and green help create a positive, bright and airy unisex washroom environment. Combine that with the hardwearing materials chosen, Tudor Grange Academy’s washrooms could withstand even the most boisterous teenage antics.

Minimal floor and ceiling clearances for user privacy

A choice of 4 finishes including 11 real wood veneers, for the most stylish washrooms

Sleek stainless steel and aluminium fittings

Our most secure emergency release indicator bolt to date

Optional choice of black, brass or bronze effect cubicle hardware for ultimate design flexibility

## Case Study Sharjah Central Shopping Mall

### Infinite Full Height has delivered ultra-modern and sleek washroom facilities to Sharjah Central Shopping Mall in United Arab Emirates.

Sharjah Central is a newly developed two storey retail and leisure destination, offering an enriching shopping experience to the local community in Sharjah, UAE. Boasting a wide selection of shops, restaurants, a 10,000 square metre hypermarket and an extensive entertainment complex, Sharjah Central's mission is to be the ultimate leisure destination for families and entertainment seekers.

Being in close proximity to Sharjah International Airport and Sharjah University City, footfall was expected to be high and steady. With this in mind, Abu Dhabi based management company Lulu Group International required a premium cubicle system which would offer visitors privacy and could stand the test of time too.

Infinite Full Height toilet cubicles were specified in heat, scratch and impact resistant High Pressure Laminate (HPL), an ideal material for heavily used areas. The ultimate in classic modernity, Infinite Full Height delivers sleek, clean lines, flush-fronts and minimalist fittings. 'Cloud' and 'Gunmetal' were the colours of choice for the cubicles, complementing the décor of the modern washrooms.

The cubicle partitions and pilasters are fixed to the floor and ceiling with fixing blocks for style and rigidity in equal measure. Meanwhile, the ceiling to floor cubicles and 20mm door clearances guarantee total user privacy.

The Infinite range boasts sleek stainless steel lever operated indicator bolts that offer quick emergency release from outside of locked cubicles. This means no damage is done to the cubicles or locks in the event of an emergency, which is a key consideration when specifying commercial washrooms in busy settings.

Stainless steel soft self-closing pilaster mounted pivot hinges, supplied as an assembly.
  - Pedestal**  
Stainless steel 100mm height adjustable (+10mm) as standard. Also a choice of 50mm or 150mm height pedestals.
  - Fixings**  
Partition to wall: Satin anodised aluminium T-section.  
Pilaster to partition: Satin anodised aluminium T-section.  
Pilaster to wall: Satin anodised aluminium channel and Z-clip.
- Accessories**  
Coat hooks and toilet roll holders available.

**We know specialist ranges.** Whether it's a vandalism prone environment, or one with rigorous health and safety considerations, we can guide you through our range of innovative, fit for purpose solutions.

Specialist

**We know education.**  
For over 40 years, we've been the washroom specialist of choice for countless nurseries, schools, colleges and universities. We know that performance, practicality and cost-effectiveness are your key considerations. They're ours too.

Education

Education

Education

# We know education.

From nurseries and children’s play areas, to colleges and universities, we’re committed to raising the standard of children and young adult’s washrooms.

**Safety**

Children have a right to be safe at all times. With this in mind, we’ve introduced a number of important features into our designs. Low-level and shaped door options allow adult supervision where it’s needed, while our clever safety hinges mean an end to trapped fingers. Our emergency release indicator bolts also come as standard across our education range, giving you extra peace of mind.

**Privacy**

Safety may be one of our top priorities, but we also believe that children have a right to privacy. That’s why we give you the option of full height and increased privacy cubicle systems for secondary and further education. Not stopping there, our solutions also include urinal privacy screens.

**Colours**

Children love colour and bold designs, which is why we’ve created the widest and brightest palette featuring 34 fresh and vibrant colours, ensuring you can create a washroom that children will enjoy using. Get creative with education washroom colour by requesting a copy of our Colour Selector brochure by visiting [www.venesta.co.uk/resources](http://www.venesta.co.uk/resources).

**Hygiene**

A hard-working washroom should also be one that’s easy to maintain. That’s why our solutions include features that make cleaning really easy. These include our washtroughs with individual drainers and minimal joints. Also, the solid grade laminate we use is totally impervious to water, which means it can withstand regular cleaning.

**Anti-tamper**

At Venesta, we work hard to ensure our stylish and robust designs encourage respect and discourage vandalism. Our solutions for secondary and further education washrooms feature metal frames renowned for strength and rigidity with durable metal fittings.

See our anti-finger trap hinges in action by watching our dedicated video on our YouTube channel.

- 01 Bold designs**  
With 34 fresh and vibrant colours to choose from, you can create washrooms that children enjoy using.
- 02 Total privacy**  
Full height designs with low floor clearance for maximum student privacy.
- 03 Easy cleaning**  
The solid grade laminate we use is totally impervious to water.
- 04 Right to feel safe**  
Low-level and shaped door options allow for adult supervision.

# Education 2-11 years

Our design team has gone to town creating spaces that challenge and delight young minds. Our Lollipop, Genesis and Award Low-Level cubicle ranges are perfect combinations of fun, safety and hygiene. Our wide range of finishes enable you to get creative with colour for schools, crèches and children's play areas.

See our Education brochure for more details.

## Door heights

Balancing privacy needs with the need to supervise children is something we carefully consider with all our education washroom designs. The option of shaped and low height doors ensures you can achieve both.

**01** Genesis HPL cubicles and HPL K1 profile vanity.

**02** Door height A Award Low-Level HPL cubicles in Indigo, Pacific, Hydrangea, Peacock, Teal and Cloud. Vepps HPL WC panelling in Cloud and Porcelain.

**03** Genesis door heights.

**Main image**  
Lollipop HPL cubicles in Olive, Duck Egg, Peony and Suede, with Vepps WC panelling in Soft Oak and Suede. Lollipop HPL vanity in Olive, Peony and Soft Oak with Sandringham 21 semi-recessed basins and Sandringham 21 self closing pillar taps.

## Case Study Alexander McLeod Primary School

**“The Genesis cubicle range was the perfect solution for this primary school, plus the wide range of colours gave the school total design flexibility.”**

Tony Starr, A F Starr

South East London-based Alexander McLeod Primary is a school where students model the high expectations and standards that are promoted at all times. The school aims to create an environment where all children can grow and flourish.

During a recent renovation project, attention was turned to the student washroom facilities. The existing toilet cubicles and vanity units were antiquated and hard for the facilities team to maintain, resulting in an uninviting space for the students to retreat to.

We worked with builders A F Starr to ensure fit-for-purpose education washroom systems were specified for the younger year's children. There was a requirement for washroom solutions that would be easy to clean and maintain whilst giving the staff the ability to supervise younger children using the facilities, where necessary.

Our popular Genesis toilet cubicles were specified in Solid Grade Laminate (SGL) in our Duck Egg and Suede finishes. Not only is SGL water and scratch proof, but its smooth surface will allow the school to uphold strict cleaning regimes to keep the school toilets sanitary for students.

With 1300mm high cubicle doors and shaped partitions, staff will be able to supervise students when required. Genesis' anti-finger trap hinges and emergency release indicator bolts made it an ideal cubicle choice.

The primary school opted for complementing SGL vanity units in matching colours. With its hardwearing, durable properties, SGL guarantees long-lasting washroom systems in busy environments such as schools.

# Education 11+ years

Cleanliness, ease of maintenance, privacy, vandal resistance.  
With tough demands like these, you'll be glad to know we build these things into our designs as a matter of course.  
The results speak for themselves.

See our Education brochure for more details.

## Case Study Isaac Newton Academy

**“Venesta’s products are great value and the staff are helpful and committed; their full height cubicles are ideal for areas where privacy is essential.”**

Akos Juhasz, Architect

Rated outstanding by OFSTED, Isaac Newton Academy is a high-achieving school that accommodates boys and girls aged between 11 and 18 years. The academy's new washroom areas needed to be as secure and private as possible for students, whilst looking bright and inviting to use. The facilities also needed to offer staff the ability to easily supervise the communal areas.

Skanska managed the design and build of the Academy and the unisex washroom facility was located in an open area and had to be easy to supervise, offering complete visual and audible privacy for the pupils.

Our Unity toilet cubicle system was chosen by the client due to its seamless, flush-fronted design and full height doors which allow for total privacy. Unity also has a low floor clearance for added privacy and robust fittings, making the toilet cubicles hardwearing and durable for those bustling school washrooms.

The indicator bolt has a discreet emergency release provision, making it the ideal choice for education environments, where safety is paramount. These cleverly designed indicator bolts mean emergency access can be gained without the need for removing or damaging the cubicle doors.

**We know healthcare.**  
We've been supplying the healthcare sector for almost 60 years. From small refurbishments to new buildings, we provide the highest quality solutions that are fit for purpose and completely compliant.

# Healthcare

In healthcare, compliance is key. Rest assured, our Vepps Healthcare systems meet the industry's requirement for fully compliant, tested and proven solutions, including HBN 00-10. Not only that, we have the knowledge and the expertise to guide you through every stage of the specification process.

**01** Vepps Boxed-Out Unit with Contour 21 500 washbasin and Markwik wall mounted thermostatic mixer tap.

**02** Markwik electronic thermostatic mixer tap with proximity sensor.

**Main image**  
Vepps Wall System  
HPL panelling  
configuration with Dark Grey grab rails and White supported back rest.

# Vepps Hygen Unit

**Designed with infection control in mind. HBN 00-10 Part C Compliant.**  
Vepps Hygen is a standalone sanitaryware assembly, formed from a single piece of solid grade laminate. Vepps Hygen is impervious to water and easy to clean and maintain, thanks to its seamless design, flush fitting hinged and lockable access doors.

**01** Vepps Hygen Unit with Contour 21 500 panel mounted basin and Markwik 21+ wall mounted thermo mixer tap.

**Key features** Hygen Unit

Manufactured from one piece of Solid Grade Laminate (SGL) creating a smooth, seamless finish for easy cleaning.

Integrated seal, designed to prevent water, vapour and airborne particles passing through the rebate.

Recessed, flush hinged and lockable access panels for ease of maintenance with allocated space to allow soap and towel dispensing units to be fitted.

Galvanised steel tie back rods complete with zinc brackets ensure a rigid and stable system.

A simple easy click wall system with concealed aluminium wall fixing channels, complete with galvanised, zinc plated steel joggle brackets for quick installation.

Maintains integrity of rear fire walls and acoustic rated walls.

Pre-plumbed and compatible with market leading sanitaryware, with more than 120 variations to choose from.

Wash hand basin assemblies have an option for a larger access hatch.

Available in all 34 standard laminate finishes.

**Performance Options**

**Width**  
700mm or 750mm

**Height**  
Up to 2740mm

**Depth**  
150mm or 225mm

**Ceiling**  
Suspended and solid options

**Assemblies options**  
Clinical Sink (ST A, ST B, ST C), Clinical Wash Hand Basin (LB H M), Disposal Unit (D U), Disposal Unit (DU H), Hand Rinse Basin (LB G S), Janitorial Unit (JU), Non-Clinical Sink (SK 1, 2), Non-Clinical Wash Hand Basin (LB G M, LB G L), Plaster Sink (PS H), Scrub-Up Trough (SUH1), Shower (TM1), Unassisted Bath (BA G), Urinal (UR), WC (WC H, WC HD)

# Vepps Recessed Unit

A cost-effective solution that doesn't protrude into your room and is fully compliant with HBN 00-10 Part C. Vepps Recessed Units have been specifically designed to maintain up to 44RwdB sound installation of standard partition walls and avoid the need for interface at both the floor and ceiling junctions.

01 Vepps Recessed Unit with Contour 21 500 washbasin and Markwik electronic thermostatic mixer tap with proximity sensor.

**Key features** Recessed Unit

- Fully compliant with regulatory requirements.
- Metal-framed, pre-plumbed system.
- Factory-fitted and tested sanitaryware.
- Hinged and lockable access panels with discreet tamper proof panel lock for maximum security.
- Extruded aluminium framework.
- Industry leading design with proven track record.
- Space saving panel unit does not protrude into the room.
- Avoids need for interface at floor and ceiling junctions.
- Maintains up to 44RwdB sound installation of standard partition wall.
- Most cost-effective solution.

# Vepps Boxed-Out Unit

Offering you a speedy and simple installation, our Vepps Boxed-Out Units maintain integrity of rear fire walls and acoustic rated walls. With variable box depths, widths and heights to accommodate service requirements, this is our fully compliant, tried and tested solution.

**Key features** Boxed-Out Unit

- Fully compliant with regulatory requirements.
- Factory-fitted and tested sanitaryware.
- Industry leading design with proven track record.
- Factory-assembled Solid Grade Laminate boxed-frame can be installed first to allow floors and ceiling to be finished.
- Box sides rebated into an extruded aluminium frame to provide a flush, easy to clean surface.
- Variable box depth to accommodate service requirements.
- Maintains integrity of rear fire and acoustic rated walls.
- Avoids the need to co-ordinate aperture sizes and positions with partitioning contractor.
- Pre-plumbed panel installed at later stage to avoid construction damage.
- Offers speedy and simple installation.
- Maximum height of 2770mm.
- Vepps panelling available in SGL, HPL and MFC.
- Vepps panelling and box frame available in 34 laminate colours.
- Vepps 7 secrets apply to panels, excluding baserail.

Vepps Boxed-Out Unit with Contour 21 500 washbasin and Markwik sequential mixer tap.

# Case study The Royal London Hospital

“Venesta’s product is both quick and easy to install, this, combined with an experienced CAD and manufacturing team makes them the ideal choice when procuring a washroom package of this size and complexity.”

Marcus Lynes, Shire Integrated Systems Ltd (Installers for Skanska)

Part of Barts and The London Hospital Foundation Trust, one of Britain's leading healthcare providers, The Royal London Hospital at Whitechapel and St Barts Hospital at St Paul's both have a reputation for making outstanding contributions to modern medicine.

During an extensive new building scheme Venesta was chosen to supply new washroom and shower solutions throughout the two hospitals. These were both huge projects and a challenge that we relished.

To ensure smooth running, we provided a full-time project manager who was responsible for the surveying, scheduling and production drawing of every unit supplied.

The client chose a pre-plumbed panelling system and Quantum SGL cubicles. The latter's solid grade laminate panels are extremely resistant to impact and impervious to water, making it an ideal solution for healthcare environments. Our pre-plumbed panelling system complies with HTM64 (superseded by HTM10) ensuring the very highest levels of hygiene and infection control.

The quality of our service was crucial to the success of this project. We offered a short lead time on all products, ensuring our client had total peace of mind, knowing that deadlines could always be met, even when unforeseen problems arose onsite.

Read the full case study at [www.venesta.co.uk](http://www.venesta.co.uk)

## Case study Cardigan Integrated Care Centre

Each Vepps Healthcare unit was pre-plumbed and tested at the Venesta factory, reducing installation time by 50% and giving the end user added peace of mind.

Cardigan Integrated Care Centre is a new healthcare centre in West Wales, housing a GP practice, dental service and pharmacy. It also boasts a minor injuries walk-in unit, mental health services, motor neurone clinics, plus much more. The aim of the £24m development was to provide safe, sustainable, integrated care for local residents.

The anticipated high footfall meant durable and hardwearing solutions were required in all consultation rooms and washroom areas. Hygiene and infection control were of paramount importance, so we worked closely with Accredited Installers, Shire Integrated Systems, to ensure fit for purpose healthcare solutions were selected.

Vepps Boxed-Out Units were specified for all consultation rooms and offered speedy installation, while maintaining the integrity of rear fire walls and acoustic rated walls. The Solid Grade Laminate (SGL) box sides were rebated into strong extruded aluminium frames that provide flush, easy to clean surfaces.

The hinged access panels across conceal duct space, while discreet and tamper proof panel locks offer maximum security for staff and patients. Unique 90° linear-bearing hinged panels make ongoing maintenance work easier than plain panel alternatives, removing the need to manually remove panels when accessing duct space.

We're thrilled to hear of the Centre's success since opening its doors and that it's been hailed as an 'ambitious step forward' in healthcare in the local area.

Overall height

Active lockers	1913mm
Bench lockers	1473mm from bench level

Widths

300mm (not applicable to Model Z)  
400mm

Depths

500mm  
830mm (including bench)

Active lockers key features

- Available in 34 laminate colours
- Robust and hardwearing
- Practical in design and functionality
- High impact resistance
- Totally impervious to water

Door performance

High impact resistant 13mm thick Solid Grade Laminate (SGL) doors with 3mm radius corners.

Body performance

Robust, hardwearing and waterproof 3mm SGL carcass in Cloud.

Dividers

Hygienic, easy to clean 13mm thick SGL horizontal shelves in Cloud or Shadow.

Hinge

Rolled stainless steel self-closing hinge.

Ventilation

3mm space between doors and frame allows air to circulate.

Locks

- Coin retain
- Coin return
- Cylinder/cam lock
- Digi lock
- RFID lock
- Hasp lock

Accessories

- Laser cut numbers for locker doors
- Nylon coat hooks as standard with Model 1, Model 2 and Model Z lockers
- Nylon coat hooks as standard with Model 1 and Model Z bench lockers
- Corresponding wristband in red or blue

Stands

Venesta recommends that the lockers are installed on a raised concrete base in wet areas. Alternatively, the lockers can be mounted on a powder coated cantilevered bench. Please contact our sales team for details.

Bench locker 300mm width

Opening sizes	
Model 1	1434 x 262mm

Model Z	1025x 362mm

Benches

Our benches have been designed to provide strength, safety and flexibility. Available in 2 materials (13mm SGL and 32mm hardwood) and in five profiles. Each benching solution has Light Grey (RAL9006) powder coated steel or stainless steel\* tubular framework.

Box section construction is tubular with adjustable feet and hidden fixings.

These bench systems are ideal for any of our washroom or cubicle systems, in both wet and dry environments.

\*Contact our friendly sales team on 01474 353333 for details on prices and lead times.

Perimeter

Perimeter cantilever benching

Freestanding benching

Island benching

Locker benching

Benching key features

- Hardwearing SGL and hardwood benching options available
- Available in five profiles, each with tested tubular framework
- Ideal for wet and dry environments
- Designed for high level use
- Adjustable feet to suit uneven floors
- Optional shoe rack detail available
- Optional cubicle anti-peep rail detail available to complement coat hooks

Profiles

- Perimeter benching
- Perimeter cantilever benching
- Freestanding benching
- Island benching with integral coat hooks
- Locker benching

Dimensions

440 or 460mm bench height.

Performance

Hardwood slats in beech or SGL solid or pocket benches with double corrosion protected Light Grey powder coated steel or stainless steel\* tubular frame.

Wall mounted coat hooks

13mm SGL or 20mm hardwood coat rails in beech, with satin anodised aluminium coat hooks.

\*Contact our friendly sales team on 01474 353333 for details on prices and lead times.

SGL wall mounted coat hooks

**We know custodial cubicles.**  
Designed to suit the specific  
needs of custodial environments,  
our strong and durable Prison  
toilet cubicles feature robust  
core materials and fittings as  
standard to ensure the safety of  
inmates and staff.

# Prison cubicles

Our durable Prison cubicles are available in scratch, impact and water resistant SGL, with robust anti-tamper fittings as standard to ensure the safety of inmates and staff. Our Prison toilet and shower cubicle range meets the most stringent specifications of strength, durability, safety and hygiene.

**01** Continuous satin anodised aluminium floor to ceiling posts offer added cubicle strength and rigidity. The posts come with robust and secure fittings for maximum safety and security.

**02** For user safety, our emergency release indicator bolts allow quick and safe access to inside locked cubicles.

See p138-139 for Prison technical specifications.

**Main image**  
Prison SGL toilet cubicles in Cornflower Blue and Cloud with satin anodised aluminium fittings.

## Key features

- Easy staff supervision thanks to reduced door heights
- Continuous floor to ceiling posts for strength and rigidity
- Bespoke cubicle sizes to suit your brief
- Emergency release indicator bolts and anti-finger trap hinges as standard
- All anti-tamper fittings are security fixings as standard to ensure safety
- Water, scratch and impact resistant SGL is ideal for wet and dry environments
- A choice of 34 laminate finishes for maximum design flexibility

Technical Specifying Prison

Dimensions

- Maximum height**  
1500mm
- Maximum depth**  
1900mm
- Floor clearance**  
150mm

Performance

Available in one material option, our Prison cubicles are suitable for every type of wet or dry custodial environment, allowing you to specify an appropriate option to meet site requirements and your budget.

**SGL**  
Solid grade laminate is extremely resistant to impact and all surfaces are impervious to water. Panels are 13mm nominal thickness with polished black radiused edges.

34 colours from the standard range.
- Cubicle hardware**  
Satin anodised aluminium.
- Edge treatment**  
**SGL**  
Polished black radiused edge.
- Floor to ceiling posts**  
Satin anodised aluminium floor to ceiling posts with satin anodised aluminium effect floor fixings.
- Cubicle hardware**
  - Indicator bolt**  
Satin anodised effect powder coated zinc easy grip sliding bolt with emergency release facility and concealed fixings.
  - Hinge**  
Satin anodised aluminium effect anti-finger trap hinge.
  - Pedestal**  
Rigid satin anodised aluminium floor to ceiling posts are fixed to the floor with security pan head screws.
  - Fixings**  
Partition to wall: Satin anodised aluminium angle.  
Pilaster to partition: Satin anodised aluminium floor to ceiling post with aluminium angles.  
Pilaster to wall: Satin anodised aluminium angle.  
Cubicle fixings: M6 pin torx security heads barrel bolts to pilasters and end panels.  
Please note: All fittings provided are security fixings to suit the environment.

**Cubicle Express** Designed to meet your demands for the quickest and simplest washroom installation, this off-the-shelf solution is supplied to you within 48 hours. Supplied in oversized formats for onsite flexibility, this really is the hassle-free washroom solution.

Cubicle Express

The quickest and simplest installation is ready and waiting.

Promising you the winning combination of best value and uncompromising design quality, the Cubicle Express range includes cubicles, duct panels and vanities. All suitable for dry environments, the range features enlarged and ambulant cubicles with all the components and fixing instructions you need for a speedy build.

Available in oversized formats for onsite flexibility, Cubicle Express has a range of innovative features including channels that replace cleats and a new universal hinge. You can also choose from a selection of colours and shaped, low height doors, and have the option of our post-formed pilaster too.

Key features

- 48 hour delivery
- Flexibility - standard component sizes easily cut to suit site requirements
- Suitable for dry areas
- Six popular colour choices
- Robust fittings in Dark Grey ABS

Specialist ranges

01 Cubicle Express children's doors.

02 UPVC wall channel and H-section.

See p144-149 for Cubicle Express technical specifications.

- 1 large pilaster 1850 x 900mm
- 1 square edge pilaster drilled hinge 1850 x 550mm
- 1 1800mm aluminium headrail in Dark Grey

(Inline pack also available with post-formed pilasters - C3P)

C4 Floor to ceiling post

- 1 floor to ceiling post 3750mm
- 2 flanges
- Screws, plugs and channel through bolt fixings

GR1 Ambulant/enlarged grab rail pack

- 3 grab rails, White powder coated 600mm
- 2 door opening handles Dark Grey powder coated
- 1 fixing pack complete

Children's doors

C1C Children's door pack

- 1 door 1850 x 900mm
- 1 square edge pilaster 1850 x 220mm
- 1 square edge pilaster hinged 1850 x 115mm
- 1 square edge pilaster no hinge 1850 x 115mm
- 1 square edge pilaster for enlarged cubicle drilled for hinge 1850 x 400mm
- 3 UPVC door cap/wall channels 1850mm
- 1 1800mm aluminium headrail in Dark Grey

(Children's door pack also available with post-formed pilasters - C1CP)

Children's doors

Children's doors

Vanities

Vanities

All framework by others. The installer needs to provide an appropriate timber-frame to support vanity units (typical example: 50 x 50mm treated softwood).

Longer vanities can be achieved by joining two lengths.

The return end panel for vanity units will be supplied oversized to enable the installer to make onsite adjustments.

V1 Vanity unit pack

- 1375 x 555mm top post-formed into a 100mm downstand and a 75mm high upstand blocked both ends
- 1 1275 x 645mm under panel
- Clips and screws
- 3 unedged flashgaps 1300 x 200mm
- Fixing brackets and screws
- 2 loose return ends

# Selecting Cubicle Express

Each product pack (cubicles, duct panels and vanity units) will be supplied fully boxed, clearly labelled, complete with all the necessary fixing components and installation instructions.

### Cubicle selection

1.
- For each set of cubicles, identify which of the layouts suits your project, then refer to the grid beside it.
2.
- Read across the top row of the grid until you reach the number of cubicles required.
3.
- Read down the column under the number of cubicles to identify the pack and quantities you require.

#### Options for all types

- Children's door instead of standard door pack.
- Ambulant/enlarged grab rails and door opening bars are available separately.
- Post-formed pilasters.

**Please note:** minimum cubicle width 750mm.

### Between walls

Number of cubicles	1	2	3	4	5	6	7	8
Door pack	1	2	3	4	5	6	7	8
Fittings pack	1	2	3	4	5	6	7	8
Partition pack	0	1	2	3	4	5	6	7
Floor/ceiling post pack	0	0	0	0	0	0	0	0
Maximum width - mm	1060	2120	3180	4240	5300	6360	7420	8480

### Freestanding

Number of cubicles	1	2	3	4	5	6	7	8
Door pack	1	2	3	4	5	6	7	8
Fittings pack	1	2	3	4	5	6	7	8
Partition pack	2	3	4	5	6	7	8	9
Floor/ceiling post pack	1	1	1	2	2	2	2	2
Maximum width - mm	1060	2120	3180	4240	5300	6360	7420	8480

### In wall angle

Number of cubicles	1	2	3	4	5	6	7	8
Door pack	1	2	3	4	5	6	7	8
Fittings pack	1	2	3	4	5	6	7	8
Partition pack	1	2	3	4	5	6	7	8
Floor/ceiling post pack	0	0	0	0	0	0	0	0
Maximum width - mm	1060	2120	3180	4240	5300	6360	7420	8480

### Inline cubicle

	Between walls	In wall angle
Number of cubicles	1	1
Door pack	1	1
Fittings pack	1	1
Partition pack	0	1
Inline pack	1	1
Maximum length - mm	2000	2000

### Vanity selection

1.
- Determine how many vanity basins you require in each top.
2.
- Check that your chosen top will fit into the space available onsite.
3.
- Each vanity pack includes under panel, return end and flashgap. These are all included along with fixings pack.
4.
- The supporting softwood frame is supplied by others.

1375mm long top	Up to 2 basins	Pack V1
-----------------	----------------	---------

### Panel selection

1.
- For each range of panels, determine how many you want of each type.
2.
- Check that they will fit into the space available onsite.
- Always leave a vertical gap 25mm wide between a panel and a wall.
- Leave a 25mm wide vertical gap between each panel.
- For WC panels, leave 50mm for fixing a cubicle partition.
- Plain panel packs P3 and P4 can be cut down and re-edged onsite to cater for ranges that do not accommodate 700mm modules.
3.
- For each panel you will need one flashgap pack.

# Selecting Cubicle colours

With the flexible range of colours offered by Cubicle Express you can contrast pilasters, doors and partitions to create an attractive colour combination. Doors, partitions and duct panels are available in a choice of 6 popular colours.

# Accessories

Accessories are available from Venesta.

- 01
- Single toilet roll holder, plastic Dark Grey.
- 02
- Coat hook, plastic Dark Grey.
- 03
- Internal grab rail, 600mm, White powder coated aluminium.
- 04
- Exterior door handle, Dark Grey powder coated aluminium.

**We know panelling.**

At Venesta, we're renowned for our innovations in panelling. From our Venesta Engineered Pre-Plumbed System, Vepps, to our cost-effective Rapiduct system, we have a fit for purpose solution to suit your needs.

# Panelling

**You're assured of the right solution. We know that every design scheme is different, so we've created three different solutions, each one carefully designed and manufactured with you in mind. Whether you need a made to measure, ready to install integrated system, or a basic, excellent value alternative, you can find it here.**

# Vepps

## Pre-plumbed

With over 120 years of washroom innovation, we introduce Vepps. Our revolutionary, fully engineered metal framed pre-plumbed system offers even faster installation, even easier ongoing maintenance and a much wider range of factory fitted sanitaryware, all at a lower cost. What makes Vepps unique is its linear-bearing hinges and support ratchets, offering easy access to duct space and effortless, smooth movement. A Venesta dowel dock ensures perfect panel alignment whilst zinc plated steel tie backs offer improved stability to the whole system. Vepps can be specified with any Venesta cubicle or vanity system. Plus it of course comes with Venesta's rock solid 10 year product guarantee.

# Frameduct

## Non-plumbed

If you're looking for a sturdy, metal-framed panelling system but want the choice of specifying your own sanitaryware, then Frameduct is the ideal solution. It's made to measure and features a click-fix mechanism so it's quick and easy to install. Frameduct can be specified with any Venesta cubicle or vanity system.

# Rapiduct

## Timber-framed

Simple, functional and cost-effective, this panelling system is flexible enough to suit any cubicle range. Unlike the other panelling options, Rapiduct is constructed onto a timber-frame, not supplied by Venesta, and is designed for your own build and installation. You can specify Rapiduct with any Venesta cubicle or vanity system.

Your checklist to make specifying easy.

From education to retail, healthcare to industrial, Venesta has a proven track record of supplying high quality panelling systems for the most demanding environments.

Benefits

To help you choose the right system for you, we've put together this at-a-glance benefits checklist.

	Vepps	Frameduct	Rapiduct
Factory fitted sanitaryware	•		
Choice of pre-plumbed WC suites, urinals, basins and vanity units	•		
Fully tested sanitaryware	•		
Speedy installation	•	•	•
Factory assembled, guaranteeing a quality product and finish	•	•	
Unique click-fix metal frame	•	•	
Metal framework, impervious to water	•	•	
Product longevity	•	•	•
Suitable for use with all types of sanitaryware		•	•
Lockable duct panel option	•	•	•
Conceals plumbing and services (wastes and traps)	•	•	•
Provides easy access for maintenance	•	•	•
Choice of board types and edge details, providing an offering to suit any application	•	•	•
Universal – it complements any cubicle range	•	•	•
10-year product guarantee	•	•	•
Venesta linear-bearing hinge and panel support ratchets for easy maintenance	•	•	

A solution tailored to your needs

**Vepps**  
The choice for efficient and easy installation, Vepps is the ultimate made to measure metal, pre-plumbed system, perfect for whatever sector you're working in.

**Frameduct**  
Our made to measure, ready to install metal, non-plumbed system has all the cutting edge features you need, but gives you the flexibility to choose your own sanitaryware.

**Rapiduct**  
As the best quality, low-cost choice, Rapiduct offers you a well-crafted, functional system and the flexibility to choose your own sanitaryware.

**Vepps** gives you a ground-breaking pre-plumbed system that ticks all the boxes. It's simple, flexible and compatible with all products. Plus, it's adaptable enough to work across any sector.

**You need simplicity.**

Vepps is the industry's first precision engineered pre-plumbed panelling system with a click-fix assembly into an aluminium frame. That means installation is efficient and cost-effective.

**Simplicity.**

**With 7 unbeatable benefits...**

**Cost.**

Proven to be more cost effective over the whole project lifecycle.

**Onsite speed.**

Onsite installation 50% faster than traditional plain panel method systems.

**Quality.**

Perfect factory finish and panel alignment as well as a 10-year guarantee.

**Maintenance.**

No manual handling with our linear-bearing hinged panels.

**Health & Safety.**

Less tradesmen and less time spent on site reduces health and safety risk.

**Choice.**

Sanitaryware from Ideal Standard, Armitage Shanks and SanCeram.

**Environment.**

90% less packaging and board waste is recycled in our biomass burner.

**Key features**

- Metal-framed, pre-plumbed system
- Factory fitted sanitaryware
- Ultra strong aluminium frame
- Industry leading design
- Unique Venesta linear-bearing hinge™
- Complete onsite flexibility
- Provides a cost-effective, quick installation
- Reduces the need for onsite specialist skills
- Suitable for wet and dry environments
- Bespoke system ready to install
- Suitable for all board types
- Increased product longevity

Speed.

See how quick and easy it is to operate Vepps by watching our dedicated video on our YouTube channel.

**You need speedy installation.**  
Our design team created Vepps to ensure that's what you get. There are four easy steps to installation, so you can be up and running in the shortest possible time frame, with a guaranteed quality finish.

**01** Once the site has been prepared, fix the aluminium docking frame to the wall, ceiling and floor.

20 minute installation

**02** Click-fix the first Vepps unit onto the frame and slide into position. Open the mid panel to a fully hinged position. Attach a vertical flashgap to the frame on either side of the unit, screw-fixing to the frame from the face. Fix tie back to the wall. Repeat until all units are in place.

30 minute installation

**03** Once all the units are in position, connect the plumbing and services.

10 minute installation\*

**04** Simply close the hinged panel and attach the top and bottom panels of the unit. Installation complete.

5 minute installation

The comparisons given between Vepps, Frameduct and Rapiduct are a guide and are designed to help you choose the right product for your project.  
\*Dependent on brassware.

## Case Study ICON Outlet at The O2

**Venesta were pleased to work alongside ISG and Wren Construction to provide male, female, baby and accessible washroom facilities.**

Spanning an impressive 210,000 square feet, ICON Outlet is The O2's brand new urban outlet shopping centre, bringing together over 60 of the best fashion and lifestyle brands.

Unity cubicles were specified to meet the high demands of this new and exciting shopping centre. Unity's clean, modern and minimal design was the perfect choice, offering a 'floating' flush front that makes a guaranteed impact.

The HPL cubicles supplied have a durable moisture resistant chipboard core, faced with high pressure laminate to accommodate daily cleaning requirements. Unity also offers anti-tamper, concealed stainless steel and satin anodised aluminium fittings, ensuring the strength and security of the cubicles.

ICON Outlet selected our ground-breaking pre-plumbed Vepps system, making regular duct maintenance effortless thanks to its linear-bearing hinge. Our 90 degree hinge removes the need to manually lift off and replace panels when carrying out maintenance work, which is inefficient and could cause the panels to become damaged or misaligned.

Venesta were proud to have been involved in such a significant project, helping to ensure shoppers, diners and visitors of all ages and abilities have the best possible customer experience, even when visiting the washroom.

## Performance

Available in six material options, Vepps is suitable for every type of wet or dry environment, allowing you to specify the most appropriate panel option to meet the site requirements and your budget.

**MFC**

For dry environments with low risk of vandalism. Panels are manufactured from 19mm nominal thickness high performance moisture-resistant melamine faced chipboard. Edges lipped with ABS.

**HPL**

For more heavily used washrooms, panels are heat, scratch and impact resistant. Manufactured from moisture-resistant chipboard faced with high pressure laminate, panels are 19mm nominal thickness. Edges lipped with ABS. Post-formed vertical edge option available.

**SGL**

Solid grade laminate is extremely resistant to impact and all surfaces are impervious to water. Panels are 13mm nominal thickness with polished black radiused edges.

**ColourCoat**

Panels are 18mm nominal thickness MDF sprayed with a coat of primer and finished with 20% gloss pigmented lacquer.

**ColourCoat High Gloss**

Panels are 18mm nominal thickness MDF sprayed with a coat of primer and finished with 80% gloss pigmented lacquer.

**Veneer**

Manufactured from moisture resistant chipboard faced with real wood veneer, panels are 18mm nominal thickness. Edges lipped with matching ABS lipping.

## Detailing

**Panels**

Available in MFC, HPL, SGL, ColourCoat, ColourCoat High Gloss and Veneer.

**Flashgaps**

MFC, SGL, ColourCoat, ColourCoat High Gloss and Veneer.

**Colour finish**

**MFC, HPL and SGL**

34 colours.

**ColourCoat & ColourCoat High Gloss**

10 ColourCoat and ColourCoat High Gloss colours available when specifying Vepps with selected V1 and V2 cubicle ranges. Unlimited ColourCoat and ColourCoat High Gloss options (any classic RAL) when specifying Vepps with selected V3 cubicle ranges.

**Veneer**

Wide range of Alpi veneer options (varying price points).

**Edge treatment**

**MFC and HPL**

Matching ABS lipping.

Post-formed vertical edge option available with HPL.

**SGL**

Polished black radiused edge.

**ColourCoat & ColourCoat High Gloss**

Edges are sprayed with a coat of primer and finished with 20% or 80% gloss pigmented lacquer, respectively.

**Veneer**

ABS lipping to match.

**Flashgaps**

Flashgaps have unfinished edges except return end flashgaps which will be ABS lipped (or polished if solid grade laminate).

**Docking frame**

Headrail and baserail manufactured from extruded aluminium section.

**Subframes**

Manufactured from rolled galvanised steel section with aluminium cross brace bars. Subframe installed within aluminium docking frame by click-fix nylon location brackets. Back panels fixed to steel section by metal brackets.

**90° linear-bearing hinge™**

Manufactured from zinc plated steel with chrome plated rivets and black glass filled nylon linear-bearing, set at fixed height of 1950mm.

**Panel lock**

Manufactured from stainless steel with a polished finish in set positions.

Technical Specifying Vepps

Secrets of Vepps

**1. Venesta linear-bearing hinge™**  
Our precision engineered, high strength linear-bearing hinges and panel support ratchets offer smooth movement and allow panels to be positioned at 10 different heights, all without any gaps between panels.  
Patent approved.

**2. Venesta dowel-dock**  
Designed for strength and perfect panel alignment, our dowel-dock system ensures panels return to their correct position every time.  
Patent approved.

**3. Tie backs**  
Adjustable zinc plated steel tie backs offer a bracing system for improved stability and allow for easier, speedier installation.

**4. Baserrail**  
Designed in a smooth, modern Light Grey or Dark Grey powder coated aluminium finish, the Vepps baserrail, ensures compatibility with all cubicle ranges and washroom designs.

**5. Panel lock**  
We understand the need for added safety without compromised aesthetics. In stainless steel with a tamper proof security key opening, our panel locks are discreet and ensure maximum security.

**6. Wall hung WC carrier**  
Our wall hung WC carrier is made from Solid Grade Laminate. It simply locates into the baserrail and is fixed back to the building structure without the need for floor bolts. The assembly has been load tested to 400kg and complies with BSEN 997.

**7. Fittings**  
We understand the need for products that last. That's why all of our metal components are non-ferrous or coated to protect against rusting and corrosion.

**Frameduct** is our made to measure, ready to install metal-framed non-plumbed system. It has all the cutting edge features you need but gives you the flexibility to choose your own sanitaryware.

Frameduct Easy installation

You need easy installation.  
Frameduct brings you an intelligent, great looking system that’s easy to install but with an added bonus - you get to choose your own sanitaryware.

Frameduct's superbly crafted, metal-framed panelling has been created to give you quick and easy installation. Its clever click-fix mechanism is simplicity itself. Not only that, Frameduct gives you the opportunity to choose your own sanitaryware.

01 Once the site has been prepared, fix the aluminium docking frame to the wall, ceiling and floor.

🌀 20 minute installation

02 Click-fix the first Frameduct unit onto the frame and slide into position. Open the mid panel to a fully hinged position. Attach a vertical flashgap to the frame on either side of the unit, screw-fixing to the frame from the face. Fix tie back to the wall. Repeat until all units are in place.

🌀 30 minute installation

03 Drill or cut out for sanitaryware.

🌀 10 minute installation

04 Mount sanitaryware and brassware.

🌀 20 minute installation

05 Once all the units are in position, connect the plumbing and services and apply silicone sealant to sanitaryware.

🌀 10 minute installation\*

06 Simply close the hinged panel and attach the top and bottom panels of the units. Installation is complete.

🌀 5 minute installation

34 colours.

ColourCoat and ColourCoat High Gloss

10 ColourCoat and ColourCoat High Gloss colours available when specifying Frameduct with selected V1 and V2 cubicle ranges. Unlimited ColourCoat and ColourCoat High Gloss options (any classic RAL) when specifying Frameduct with selected V3 cubicle ranges.

Veneer

Wide range of Alpi veneer options (varying price points).

Edge treatment

MFC and HPL

Matching ABS lipping.

Post-formed vertical edge option available with HPL.

SGL

Polished black radiused edge.

ColourCoat and ColourCoat High Gloss

Edges are sprayed with a coat of primer and finished with 20% or 80% gloss pigmented lacquer, respectively.

Veneer

ABS lipping to match.

Flashgaps

Flashgaps have unfinished edges except return end flashgaps which will be ABS lipped (or polished if solid grade laminate).

Docking frame

Headrail and baserail manufactured from extruded aluminium section.

Subframes

Manufactured from rolled galvanised steel section with aluminium cross brace bars. Subframe installed within aluminium docking frame by click-fix nylon location brackets. Back panels fixed to steel section by nylon clips.

90° linear-bearing hinge™

Manufactured from zinc plated steel with chrome plated rivets and black glass filled nylon linear-bearing, set at fixed height of 1950mm.

Panel lock

Manufactured from stainless steel with a polished finish in set positions.

**Rapiduct** is a low-cost bespoke duct panelling system specially created by our panelling experts to give you easy installation and a functional finish, perfect for any wet or dry washroom environment.

# Rapiduct Easy installation

The best value for function, finish and easy installation, Rapiduct's clever construction means it can be put together in the shortest time.

01 Install timber-frame (supplied by others).

⌚ 30 minute installation

02 Fit base flashgaps to the site frame followed by vertical, horizontal and top flashgaps.

⌚ 20 minute installation

03 Attach fixing clips to the inside edge of the vertical flashgaps, repeat process on back face of panels.

⌚ 30 minute installation

04 Drill or cut out for sanitaryware.

⌚ 10 minute installation

05 Mount combined panel, sanitaryware and brassware onto flashgaps before completing pipework.

⌚ 20 minute installation

06 Once all the units are in position, connect the plumbing and services.

⌚ 10 minute installation\*

07 Simply attach the top and bottom panels to the units. Installation complete.

⌚ 5 minute installation

**You need easy installation.**  
Simple, functional and highly cost-effective, this timber-framed panelling system is flexible enough to suit any washroom and is designed for your own installation. You can specify Rapiduct with any Venesta cubicle or vanity system.

**We know Mirror Box Units,  
vanities and accessories.**

To meet your demands, our  
range of Mirror Box Units,  
vanities and accessories  
bring form and function  
together in one collection.

**Mirrors, vanities  
and accessories**

Our **Mirror Box Units** combine contemporary style with convenient storage for a modern, minimalist solution suitable for all kinds of commercial washrooms.

# Mirror Box Units

# Mirror Box Unit 1300mm

A minimalist design illuminated by halo back-lit cool white LEDs which is guaranteed to make a bold statement. The lockable mirrors combine functional concealed contactless accessories with additional storage space, maximising available wall space and eliminating the requirement for wall hung accessories.

**01** Gas strut hinges allow easy access to concealed hand dryers, liquid hand soap dispensers and internal shelf.

**02** Economical and sanitary sensor technology as standard.

See p208-209 for Mirror Box Unit technical specifications.

**Main image**  
1300mm Mirror Box Units with integrated hand dryers and liquid soap dispensers. Solid Surface washtrough in Everest with Hartley wall mounted mixer taps in matt black.

Visit our YouTube channel to explore the features and benefits of Mirror Box Units.

## Key features

- Minimalist design available in 2 sizes
- Illuminated by halo back-lit cool white LEDs
- Fully concealed behind mirror hand dryers, liquid soap and paper towel dispensers
- Carcass and accessories are off-site assembled for speedy installation
- Increased levels of hygiene with contactless technology and easy to clean surfaces
- Option of infill mirrors for panoramic design

# Mirror Box Unit 700mm

Mirror Box Units are available with a range of configurable accessories and layouts to suit your requirements. Choose from contactless liquid hand soap dispensers, automatic hand dryers and paper towel dispensers, all of which are concealed, to keep surfaces clear, hygienic and easy to clean, with easy ongoing maintenance.

**01** Minimal design available in 2 widths to complement any vanity area.

**02** Gas strut hinges allow easy access to concealed paper towel and liquid hand soap dispenser.

See p208-209 for Mirror Box Unit technical specifications.

**Hardware**  
**Hinges**  
Door fitted with gas strut hinges.  
**Lock**  
Roller shutter rim lock.  
**Lighting**  
Supplied with cool white 6000k LED lighting as standard, fitted flush into a rebate on rear of the door, providing a bright back-lit halo around the unit. Installed using waterproof IP67 rated connectors.  
**Fixings**  
Supplied with Z-hangers for wall/panel fixings.

**Accessories**  
**Paper towel dispenser**  
Suitable for most standard multi-fold paper towels, capable of holding three stacks of paper towels. Top loading by access inside cabinet. Requires 2 mounting spaces. Accessory icon indicator available as standard.  
**Liquid soap dispenser**  
Battery operated (4x C cell batteries required) automatic hand sensor. 2L liquid soap capacity equavilant to 3,200 dispenses. Requires 1 mounting space. Accessory icon indicator available as standard.  
**Hand dryer**  
Automatic hand sensor, 71 dBA noise rating, 130m3/h capacity, 1.7kW motor, mains feed required into rear of unit. Requires two mounting spaces. Accessory icon indicator available as standard.

We've created a **vanities** collection that's contemporary in style and highly functional. Whether you're looking to create a prestigious, luxury finish or something simple and understated, our collection has everything you need.

# Vanities

# Vanities Granite

Step into the rare and distinctive world of natural stone with granite. The perfect solution for your most exclusive and prestigious design solutions, granite comes with a choice of basins and brassware.

Key features

- Granite offers exclusivity and individuality
- A choice of seven finishes
- Extremely durable and hardwearing
- A choice of designer basins and brassware
- Resistant to heat, scratches and chips

# Vanities Solid Surface

For luxury, strength and a smooth, seamless finish, our Solid Surface solution wins hands down. The carefully composed blend of acrylic polymer minerals and integral moulded reinforcements create a low maintenance, non-porous material which ensures complete impact and thermal shock resistance. Now available in 13 striking profiles and in a choice of 22 on-trend finishes, for ultimate washroom design flexibility.

Key features

- Sleek, solid material ensures consistency and durability
- 13 vanity profiles, including stylish washtroughs, all in a choice of 22 on-trend finishes
- A choice of thermoformed or hidden waste washtroughs
- Integral bowl option offers a seamless finish
- Offers flexibility and space efficiency
- A non-porous material that resists stains and bacteria
- Impact-resistant and requires very little maintenance

# Vanities SGL

The most demanding washroom environments need durable and hard-working solutions to match. Solid Grade Laminate (SGL) is built to last and is totally impervious to water. Plus, it comes in a choice of 34 on-trend colours.

**Key features**

- Hard-working 13mm nominal thickness SGL
- Ultimate performance for demanding environments
- Totally impervious to water
- Suitable for wet and dry environments
- Curved aluminium extrusions provide a smooth finish to the vanity upstand and downstand
- Available in 34 colour options
- A choice of vanity profiles

**01** SGL vanity with Orbit basins and Avon pillar taps.

**Main image**

**Key features**

- Anti-roll front upstand
- Quality manufacturing and design at an economical price
- Available in 34 colour options

Technical Specifying Vanities

**Solid Surface** 13mm blend of acrylic polymer minerals with integral moulded-in-reinforcements that provide impact and thermal shock resistance. Suitable for heavy duty applications. Maximum single Solid Surface vanity unit length is 3000mm.

**H1 Profile**  
Semi-recessed basin with upstand.

**H2 Profile**  
Semi-recessed basin without upstand.

**H3 Profile**  
Fully inset basin with upstand.

**H4 Profile**  
Fully inset basin without upstand.

**Solid Surface Washtrough** Maximum single Solid Surface washtrough length is 3000mm. Any stud framework is by site.

**WT1 Thermo Profile**  
Thermoformed trough with deck mounted taps. A choice of underframe or brackets.

**WT2 Thermo Profile**  
Thermoformed trough with wall mounted taps. A choice of underframe or brackets.

**WT3 Thermo Profile**  
Thermoformed trough with deck mounted taps. A choice of underframe or brackets.

**WT4 Thermo Profile**  
Thermoformed trough with wall mounted taps. A choice of brackets or underframe.

**WT5 Profile**  
Concealed waste trough with deck mounted taps. A choice of underframe or brackets.

**WT6 Profile**  
Concealed waste trough with wall mounted taps. A choice of underframe or brackets.

**WT3 Thermo Slim Profile**  
Slim thermoformed trough with deck mounted taps. A choice of brackets or underframe.

**WT4 Thermo Slim Profile**  
Slim thermoformed trough with wall mounted taps. A choice of brackets or underframe.

**MyPod Profile**  
Slim concealed waste trough with wall mounted taps. A choice of underframe or brackets.

HPL

For light and medium duty applications. High performance moisture resistant chipboard faced with high pressure laminate with post-forming to horizontal edges of under panels. Vertical edges are lipped with ABS. Maximum single HPL vanity unit length is 2770mm.

**K1 Profile**  
Semi-recessed basin with upstand.

**K2 Profile**  
Semi-recessed basin without upstand.

**K3 Profile**  
Fully inset basin with upstand.

**K4 Profile**  
Fully inset basin without upstand.

**Baby Change Profile**  
Fully inset basin with upstand.

SGL

Suitable for wet and heavy duty applications. 13mm nominal thickness with polished black radiused edges. SGL vanities come with powder coated aluminium extrusions in Satin Anodised Aluminium or Black Anodised Aluminium. Maximum single SGL vanity unit length is 2770mm.

**CV1 Profile**  
Semi-recessed basin with upstand.

**CV2 Profile**  
Semi-recessed basin without upstand.

**CV3 Profile**  
Fully inset basin with upstand.

**CV4 Profile**  
Fully inset basin without upstand.

Granite and Quartz

Maximum single Granite vanity unit length is 2770mm.  
Maximum single Quartz vanity length is 2400mm.

**G1/Q1 Profile**  
Semi-recessed basin with upstand.

**G2/Q2 Profile**  
Semi-recessed basin without upstand.

**G3/Q3 Profile**  
Fully inset basin with upstand.

**G4/Q4 Profile**  
Fully inset basin without upstand.

**G5/Q5 Profile**  
Vessel basin without upstand.

**G6/Q6 Profile**  
Vessel basin with upstand.

Light Pelmets

All fixing brackets included. Broken line indicates return end detail.

**LP3 Profile HPL Pelmet**

**LP6 Profile SGL Pelmet**

**Accessories** To complement your washroom, we've designed an inspiring range of accessories. From premium right through to budget, we promise you an accessory that's right for you.

# Accessories

Contemporary designs that do the job perfectly - that's our accessory range. To make your life easier, we have everything from soap dispensers and bins to door signs and coat hooks. It's all here ready for your selection.

**Liquid soap dispenser**  
White metal  
Wall mounted white metal liquid soap dispenser with key lock and 900ml refillable reservoir.  
H251 x W108 x D91mm  
**Code: 0302521**

**Liquid soap dispenser**  
Stainless steel  
Wall mounted stainless steel liquid soap dispenser with brushed satin finish, key lock and 900ml refillable reservoir.  
H251 x W108 x D91mm  
**Code: 0302525**

**Liquid soap dispenser**  
Grey plastic  
Wall mounted dispenser for liquid soap with Grey ABS case and stainless steel cover with 900ml refillable reservoir.  
H255 x W130 x D120mm  
**Code: 0302513**

**Foam soap dispenser**  
Grey plastic  
Wall mounted dispenser for foam soap with Grey ABS case and stainless steel cover with 900ml refillable reservoir.  
H255 x W130 x D120mm  
**Code: 0302514**

**Liquid soap dispenser**  
White plastic  
Wall mounted dispenser for liquid soap with white ABS case and 900ml refillable reservoir.  
H250 x W115 x D115mm  
**Code: 0302540**

**Liquid soap dispenser**  
Polished chrome  
Basin or vanity mounted liquid soap dispenser with polished chrome finish and 900ml refillable soap bottle.  
H85 x Ø44 x L140mm  
**Code: 0302532**

**Under mounted basin liquid soap dispenser**  
Polished chrome  
Liquid soap dispenser in polished chrome finish with 500ml soap bottle for basins mounted under vanity top.  
H60 x W105 x Ø50mm  
**Code: 0302014**

**Top mounted basin liquid soap dispenser**  
Polished chrome  
Liquid soap dispenser in polished chrome finish with 500ml soap bottle and spacer ring for basins mounted on vanity top.  
H80 x W105 x Ø50mm  
**Code: 0302015**

**Cylindrical liquid soap dispenser**  
Stainless steel  
Wall mounted stainless steel cylindrical soap dispenser with brushed satin finish.  
H193 x Ø63 x D88mm  
**Code: 0302508**

**Paper towel dispenser**  
White plastic  
Wall mounted white ABS dispenser for C-fold or interfold paper towels.  
H425 x W290 x D145mm  
**Code: 0302537**

**Paper towel dispenser**  
White metal  
Wall mounted metal dispenser in white powder coated finish with key lock. Suitable for C-fold or interfold paper towels.  
H300 x W262 x D128mm  
**Code: 0302522**

**Paper towel dispenser**  
Stainless steel  
Wall mounted stainless steel dispenser in brushed satin finish with key lock. Suitable for C-fold or interfold paper towels.  
H300 x W262 x D128mm  
**Code: 0302526**

**Paper towel dispenser**  
Black/Light Grey plastic  
Wall mounted dispenser made from Black/Light Grey ABS with stainless steel cover. Suitable for C-fold or interfold paper towels.  
H325 x W325 x D150mm  
**Code: Black trim 0302560**  
**Light Grey trim 0302519**

**Behind mirror paper towel dispenser**  
Stainless steel  
Behind mirror mounted stainless steel dispenser with hinged dispensing flaps. Suitable for interfold paper towels.  
H464 x W292 x D107mm  
**Code: 0302531**

**Elite paper towel dispenser**  
Stainless steel  
Recessed mounted stainless steel dispenser in brushed satin finish with door and key lock. Suitable for C-fold or interfold paper towels.  
H510 x W340 x D118mm  
**Code: 0302045**

**Toilet seat sanitiser**  
Stainless steel  
A compact sanitiser unit with a high quality brushed stainless steel finish.  
H196 x W98 x D97mm  
**Code: 0302501**

# Accessories

**Paper towel 30 litre waste bin**  
Stainless steel  
Floor standing stainless steel paper towel waste bin with brushed satin finish, bag holder and wall fixings. H527 x W344 x D161mm  
**Code: 0302528**

**Paper towel 50 litre waste bin**  
Stainless steel  
Floor standing stainless steel paper towel waste bin with brushed satin finish, bag holder and wall fixings. H602 x W301 x D301mm  
**Code: 0302529**

**Elite paper towel waste bin**  
Stainless steel  
Recessed mounted stainless steel paper towel waste bin with brushed satin finish, door latch and integral plastic liner. H835 x W340 x D118mm  
**Code: 0302046**

**Lockable toilet roll holder**  
Light/Dark Grey plastic  
Nylon single toilet roll holder with lockable arm and concealed wall fixings. Available in Light Grey or Dark Grey. H130 x W155 x D25mm  
**Code: Light Grey 0300403**  
**Dark Grey 0300147**

**Toilet roll holder**  
Light/Dark Grey plastic  
Nylon single toilet roll holder with concealed wall fixings. Available in Light Grey or Dark Grey. H130 x W155 x D25mm  
**Code: Light Grey 0300303**  
**Dark Grey 0300146**

**Single toilet roll holder**  
Stainless steel  
Stainless steel single toilet roll holder with concealed wall fixings. H85 x W141 x D40mm  
**Code: 0302509**

**Double toilet roll holder**  
Stainless steel  
Stainless steel double toilet roll holder with concealed wall fixings. H85 x W254 x D40mm  
**Code: 0302510**

**Jumbo toilet roll dispenser**  
Stainless steel  
Wall mounted stainless steel jumbo toilet roll dispenser with brushed satin finish, key lock and viewing slot. Ø320 x H320 x D125mm  
**Code: 0302500**

**Jumbo toilet roll dispenser**  
White metal  
Wall mounted white powder coated metal jumbo toilet roll dispenser with key lock and viewing slot. Ø320 x H320 x D125mm  
**Code: 0302523**

**Midi-jumbo toilet roll dispenser**  
Black plastic  
Wall mounted jumbo toilet roll dispenser in Black ABS case and stainless steel cover, with spare stub roll. H350 x W260 x D140mm  
**Code: 0302518**

**Midi-jumbo toilet roll dispenser**  
White plastic  
Wall mounted white ABS jumbo toilet roll dispenser. H325 x W280 x D145mm  
**Code: 0302538**

**Toilet tissue dispenser**  
White plastic  
Wall mounted white ABS toilet tissue dispenser. H275 x W150 x D130mm  
**Code: 0302539**

**Slimline warm air hand dryer**  
Stainless steel  
Surface mounted slimline warm air hand dryer, with low energy twin blowers and touch-free start/stop sensors. H345 x W350 x D100mm  
**Code: 0302520**

**Automatic high speed hand dryer**  
Metallic silver  
Compact high speed hand dryer with low energy consumption, touch-free start/stop sensor and metallic silver cast aluminium cover. H300 x W280 x D175mm  
**Code: 0302535**

**Automatic high speed hand dryer**  
White metal  
Compact high speed hand dryer with low energy consumption, touch-free start/stop sensor and white cast aluminium cover. H300 x W280 x D175mm  
**Code: 0302533**

**Automatic jet hand dryer**  
Metallic silver  
High speed jet hand dryer with metallic silver ABS cover, auto start/stop sensors and low energy consumption. H670 x W300 x D219mm  
**Code: 0302536**

**Automatic jet hand dryer**  
White  
High speed jet hand dryer with white ABS cover, auto start/stop sensors and low energy consumption. H650 x W292 x D250mm  
**Code: 0302534**

**Back support rail**  
Satin stainless steel  
Aluminium back rest 400mm long with brushed satin stainless steel finish, concealed fixings and white vinyl pad. W400 x D310 x Ø35mm  
**Code: Rail only S6466MY**  
**Pad only S688467**

**Back support rail**  
White  
Aluminium back rest 400mm long with white polyester coated finish, concealed fixings and white vinyl pad. W400 x D310 x Ø35mm  
**Code: Rail only S6466AC**  
**Pad only S688467**

**800mm hinged grab rail**  
Powder coated stainless steel  
Doc M and HBN compliant 800mm hinged grab rail with concealed fixings. W800 x Ø35mm  
**Code: White GRAB203**  
**Blue GRAB206**  
**Light Grey GRAB209**  
**Dark Grey GRAB212**

**Hinged support rail**  
Stainless steel  
Support rail in polished stainless steel with hinged support arm 800mm long and concealed fixing plate. L800 x H242 x W110mm  
**Code: S6360MY**

**Hinged support rail**  
White  
Support rail in white with hinged support arm 800mm long and concealed fixing plate. L800 x H242 x W110mm  
**Code: S6360AC**

Accessories

**Toilet brush and holder**  
Stainless steel  
Wall mounted stainless steel toilet brush and holder in brushed satin finish.  
H396 x W89 x D115mm  
**Code: 0302512**

**Cubicle door pull handle**  
Satin anodised aluminium  
Pull door handle(s) in satin anodised aluminium.  
L400 x D45 x Ø19mm  
**Code: Single 0182225**

**Cubicle door pull handle**  
Satin stainless steel  
Pair of stainless steel pull door handles with brushed satin finish and concealed fixings.  
H619 x Ø19 x D65mm  
**Code: Pair 0302511**

**Cubicle door pull handle**  
Satin stainless steel  
Stainless steel cubicle door pull handle(s) with satin finish and concealed fixings.  
L225 x D45 x Ø19mm  
**Code: Single 0182221**  
**Pair 0182218**

**Cubicle door pull handle**  
Satin stainless steel  
Stainless steel cubicle door pull handle(s) with satin finish and concealed fixings.  
L400 x D45 x Ø19mm  
**Code: Single 0182216**  
**Pair 0182232**

**Cubicle door pull handle**  
Polished aluminium  
Pair of polished aluminium cubicle door handles with a polished anodised powder coated finish.  
H175 x W150 x D80mm  
**Code: Pair 0500101**

**600mm grab rail/fixing kit**  
White  
Aluminium grab rail 600mm long with white polyester coated finish and concealed fixings. Fixing plate kit for cubicle mounted grab rails.  
W600 x D95 x Ø80/Ø32  
**Code: Single S6454AC**  
**Fixing kit 0500021**

**600mm grab rail/fixing kit**  
Polished aluminium  
Polished aluminium grab rail 600mm long with concealed fixings. Fixing plate kit for cubicle mounted grab rails.  
W600 x D95 x Ø80/Ø32  
**Code: Single S6454MY**  
**Fixing kit 0500021**

**455mm straight grab rail**  
Powder coated stainless steel  
Doc M and HBN compliant  
445mm grab rail with concealed fixings.  
W455 x Ø35mm  
**Code: White GRAB201**  
**Blue GRAB204**  
**Light Grey GRAB207**  
**Dark Grey GRAB210**

**600mm straight grab rail**  
Powder coated stainless steel  
Doc M and HBN compliant  
600mm grab rail with concealed fixings.  
W600 x Ø35mm  
**Code: White GRAB202**  
**Blue GRAB205**  
**Light Grey GRAB208**  
**Dark Grey GRAB211**

**Single coat hook**  
White plastic  
Nylon lightweight single coat hook in White with concealed fixings.  
H50 x W20 x D38mm  
**Code: 0300201**

**Single coat hook**  
Light Grey plastic  
Nylon lightweight single coat hook in Light Grey with concealed fixings.  
H50 x W20 x D38mm  
**Code: 0300139**

**Single coat hook**  
Dark Grey plastic  
Nylon lightweight single coat hook in Dark Grey with concealed fixings.  
H50 x W20 x D38mm  
**Code: 0300137**

**Single coat hook 65mm**  
Stainless steel  
Contemporary stainless steel single coat hook with concealed fixings and precision made groove retained buffer.  
Load tested to 30kg.  
Ø50 x D65mm  
**Code: MFC/HPL/CC CH65T**  
**SGL CH65SG**

**Single coat hook 90mm**  
Stainless steel  
Contemporary stainless steel single coat hook with concealed fixings and precision made groove retained buffer.  
Load tested to 30kg.  
Ø50 x D90mm  
**Code: MFC/HPL/CC CH90T**  
**SGL CH90SG**

**Male WC door sign**  
Stainless steel  
Stainless steel self adhesive male WC door sign.  
Ø76mm  
**Code: 0302563**

**Female WC door sign**  
Stainless steel  
Stainless steel self adhesive female WC door sign.  
Ø76mm  
**Code: 0302564**

**Unisex WC door sign**  
Stainless steel  
Stainless steel self adhesive unisex WC door sign.  
Ø76mm  
**Code: 0302565**

**Disabled WC door sign**  
Stainless steel  
Stainless steel self adhesive disabled WC door sign.  
Ø76mm  
**Code: 0302566**

**Baby change WC door sign**  
Stainless steel  
Stainless steel self adhesive baby change WC door sign.  
Ø76mm  
**Code: 0302567**

# We know our responsibility.

## Your world is our world. At Venesta, we treat the environment the way we treat our customers, with care and commitment.

**Managing our waste**

**Targeting zero waste**

Waste is an inevitable part of any manufacturing process, but there are ways to ensure it doesn't become an environmental headache. In 2016 we set ourselves a challenge to reduce and if possible, totally eliminate our waste.

We are incredibly proud to say that in 2019 we became the first UK washroom manufacturer to achieve our target of 0% board waste to landfill.

A £1M investment into a new, state-of-the-art 1.75MW biomass burner has enabled us to eliminate MDF and HPL board waste; our smaller burner incinerates non-biomass waste like Solid Grade Laminate.

The cost of energy and the issue of carbon emissions are high on our environmental agenda and we are continually searching for ways to reduce energy consumption. Our biomass facility generates enough renewable energy to independently heat our entire manufacturing facility and office buildings.

We know our responsibility and Venesta is totally committed to making a positive impact on the environment. We treat the environment the way we treat our customers, with care and commitment.

**FSC® certification**

**Take care of the forest**

As our customer, you can be confident that our materials and products have been checked at every stage of processing to ensure we are sourcing from sustainable and ethical sources.

We only purchase wood-based panel products from suppliers who are independently certified from either FSC (Forest Stewardship Council) or PEFC (Programme for the Endorsement of Forest Certification).

Our V3 Veneer range is FSC MIX certified with a full chain of custody available for our customers.

Laminate product materials are supplied to us as an FSC accredited product under 'FSC Controlled Wood'. Certificates are available to our customers upon request to demonstrate this.

Learn about our biomass burner which has helped us achieve 0% board waste going to landfill by watching our dedicated video on our YouTube channel.

**Reducing our travel**

**Decreasing carbon emissions**

As part of our ongoing commitment to improve our carbon footprint, we've tasked ourselves with reducing employees' travelling time. All staff are encouraged to use public transport wherever possible and we've installed video conferencing facilities on all of our sites to allow meetings to be held without the need for travel.

The mark of responsible forestry  
FSC® C137315

**01-02 Waste management**

Biomass burner turns production waste into factory and office heating.

**03 Recycling**

Wherever possible, all off-cuts are worked back into production for smaller product components.

**04 Boilers**

Our biomass burner has helped us achieve our 0% waste to landfill target.

**05 Efficiency**

Robotic handling systems ensure maximum board utilisation is achieved.

# We know washrooms. Your partner, every step of the way.

Venesta is passionate about ensuring you get the very best product and service, whatever the size of the project. That's why, from your first enquiry through to installation and beyond, you'll have a team of talented and committed experts working tirelessly to ensure you're happy and satisfied.

At Venesta, we believe it's our people that make the real difference to our business success. Everyone is an expert in their field, from our highly creative CAD team to our efficient and responsive Project Managers and our dedicated manufacturing team. Their experience and professionalism is what underpins the quality of our customer relationships.

## How can we help you?

Our friendly and knowledgeable team is waiting to advise you on your project. Call us on **01474 353333**.

Alternatively, you can see all our products online at **[www.venesta.co.uk](http://www.venesta.co.uk)**. We look forward to working with you.
