

Lyons Hall Primary School

Essex, UK

Lollipop HPL
& Rapiduct HPL

Meeting the needs of
young children

The project.

Lyons Hall Primary in Essex is recognised by Ofsted as an 'Outstanding' school and has experienced continuous rapid growth and improvement over recent years. The school aims for excellence in all standards, pursued with relentless commitment.

Lyons Hall's success resulted in the need for a new teaching block to meet the demand for extra places.

The challenge.

Award-Winning RIBA Chartered Architects, Laurie Wood Associates, were chosen to undertake the development. As an existing Venesta client, they were confident of our ability to meet the standards set by Lyons Hall and the Academy Trust. They needed a supplier of washroom systems with an extensive product range and outstanding customer service. The first phase required school toilets for early years pupils.

The solution.

Lollipop toilet cubicles are designed to meet the needs of young children as they offer a fun design that encourages children to use the toilet when needed, a key consideration for their physical and mental wellbeing in those early school years.

The extra rigidity created by the unique pedestal design, and Rapiduct High Pressure Laminate (HPL) panelling, provides a robust yet economical washroom solution.

Laurie Wood chose the fun-shaped doors to allow for adult supervision where required. Lollipop cubicles offer

great safety features such as anti-finger trap hinges and a magnetic catch option instead of a lock. ABS lockable toilet roll holders and coat hooks also provide strong yet cost-effective accessories to complement the look.

Lyons Hall had total colour flexibility with a selection of 34 finishes to choose from for their new facilities, opting for blue tones to suit the school's colours. These colours complemented the cubicle's Light Grey ABS fittings.

Lollipop's anti-finger trap hinges come as standard and reduce the risk of students injuring themselves; while the emergency access indicator bolts allow staff at the school to gain entry to the cubicles without the need to remove or damage the cubicle doors.

Lyons Hall now has washrooms that children want to use. Staff are proud to show off their school toilets to prospective parents as an example of their commitment to high standards throughout the school.
