Key features

- Simple installation
- Easy grip indicator bolts with emergency release facility
- Anti-finger trap hinges as standard
- Economical
- Suitable for dry and wet environments with shower curtain track option available
- A choice of 34 on-trend finishes for total design flexibility

Case Study Wimbledon Chase Primary School

Versatile and robust Award toilet cubicles were specified due to the unrivalled safety features that come as standard.

Rated 'Outstanding' by Ofsted since 2012, Wimbledon Chase Primary School teaches over 700 pupils aged 3-11. It offers an inclusive environment where individuality and diversity is celebrated and kindness and respect is instilled in every child.

The school's washroom facilities were in need of a complete overhaul. Accredited Installers, G Haslehurst Builders, were appointed to reconfigure the space which included the installation of contemporary, reliable and easy to maintain washroom systems, all in good time.

Versatile and robust Award toilet cubicles were specified due to the unrivalled safety features that come as standard. Anti-tamper fixings and emergency release indicator bolts make Award a popular choice for schools.

These cubicles will stand the test of time thanks to the heat, scratch, impact and water resistant Solid Grade Laminate (SGL) coreboard material specified.

A fun, colourful washroom has been created by specifying the cubicle doors in 'Golden', 'Lime', Rouge' and 'Pacific', while contrasting 'Gunmetal' pilasters and partitions complement the modern décor of the room perfectly.

Door height options

Standard	2000mm
Children's option 1	1300mm
Children's option 2	1100mm

Maximum depth

MFC	2097mm
HPL	2057mm
SGL	1921mm

Floor clearance

100mm

Performance

Available in three material options, Award is suitable for every type of wet or dry environment, allowing you to specify the most appropriate option to meet site requirements and your budget.

MFC

For dry environments with low risk of vandalism. Panels are manufactured from 19mm nominal thickness high performance moisture-resistant melamine faced chipboard. Edges lipped with ABS.

HPL

For more heavily used washrooms, panels are heat, scratch and impact resistant. Manufactured from moisture-resistant chipboard faced with high pressure laminate, panels are 19mm nominal thickness. Edges lipped with ABS.

SGL

Solid grade laminate is extremely resistant to impact and all surfaces are impervious to water. Panels are 13mm nominal thickness with polished black radiused edges.
